## **Class Venue**

Unit 8 / 40 Meares Ave  
Kwinana WA 6167  
(Close to public transport)

Group bookings available. Book one of our qualified trainers to come to your workplace. Enquire with our friendly team.

Choose either **Non-Accredited** or **Accredited** course options. Both require one day in class (theory and practical). The difference between the two is Accredited option requires a Workplace Assessment, organised by the learner.

## **Full Unit of Competency (Accredited)** **\$250 per person**

- ✓ The theory of assisting with medications
- ✓ The practical skills required
- ✓ A practical workplace assessment (criteria below)

**Statement of Attainment** is issued on completion.

## **Part Unit of Competency (Non-Accredited)** **\$125 per person**

- ✓ The theory of assisting with medications
- ✓ The practical skills required

**Statement of Participation** is issued on completion.

## **Workplace Assessment Criteria (Accredited only)**

To complete the Full Unit of Competency (Accredited) HLTHPS006 Assist Clients with Medications, the learner is to attend the above one-day class and then undertake a workplace assessment.

The learner arranges their own workplace assessment, which is to be undertaken by an employee in their own workplace who is either a qualified registered nurse or registered enrolled nurse or registered Aboriginal/Torres Strait Islander health practitioner. (Assessors must satisfy the standards for RTOs 2015/AQTF mandatory competency requirements).

Learners are to follow workplace policies, procedures and regulatory requirements. They will need to demonstrate providing assistance with medication:

- To at least 5 different clients according to support plans
- With at least 5 different types of medication
- Using at least 3 different modes of administration
