

Medication Essentials for Support Workers

**Learn valuable
knowledge in medication
essentials to best support clients**

Designed by expert trainers ✓

Online or group workshop training ✓

Customised training available to suit workplaces ✓

Medication Essentials for Support Workers is ideal for individuals looking to upskill online!

Whether you work in aged care, disability support, home or community care, this short course gives you a clear, practical knowledge in how to assist clients with medication safely, respectfully and within your scope as a support worker.

Or hire one of our expert trainers at your workplaces for customised in-person group training, in support of your workplace medication requirements.

Online

Individual **online** study.

Certificate of Participation
provided upon completion.

In-Person Group Training

In-Person workshop training is
available in **Group Bookings** only
(minimum 10+ attendees for groups).
Enquiry with our team for available
